

## CHEMISTRY AND COMPOSITES MERIT BADGES

# ASHLAND.

With good chemistry great things happen.™

Ashland Inc. is pleased to be able to offer Boy Scouts within the Simon Kenton Council an opportunity to earn the chemistry and composites merit badges.

The program will be held on Saturday, March 31, 2012 from 8:00am to 2:30pm at Ashland's location on 5200 Blazer Parkway in Dublin.

There is no cost for this program, but reservations are required. Our class size is limited to no more than 38 youth due to safety considerations. Reservations will be accepted first-come, first-served.

In order to be able to offer this program as widely as possible, each Unit may send no more than 6 Scouts. Due to safety requirements and the BSA two-deep leadership policy, each unit must send at least two adult leaders along with your Scouts.

Please no class "A" uniforms. Wear class "B" for this workshop, due to the work that will be performed in the labs.

Pizza will be provided for lunch.
